COMPETITION RULES

It is important to remember that participants are marked for both correct procedure and correct spelling. If the team has not followed the correct procedure, it will get a zero even if the spelling is correct. The procedural and marking rules are as follows:

A. Procedural Rules:

1. The designated speller from each team will have a total of 40 seconds to give the spelling of the word.
2. During the first 20 seconds:
 - The designated speller can consult the team members.
 - Any team member can ask the pronouncer to repeat the word, or the meaning of the word. For Urdu Spelling Bee, the meanings of words will not be provided.
3. A signal will be given at the end of 20 seconds. After that signal, the designated speller has 20 seconds to spell the word, during which:
 - No discussion is allowed between team members.
 - Team members cannot ask any questions or request the pronouncer to repeat the word
 - Team members cannot correct or stop or prompt the speller while she/he is spelling the word.
4. Another signal will be given at the end of 40 seconds.
5. When answering, the speller must follow the “Say-SPELL-Say” process, by first saying the word, spelling it, and then saying the word again.
6. The speller should spell the word slowly and audibly, so that the pronouncer can hear each letter clearly.
7. The speller may remain seated while answering.
8. No team member is allowed to write or type words, unless asked by the PSB officials.
9. Once the speller has spelt the whole word, whether correctly or incorrectly, she/he will not be allowed to correct herself/himself. Example: If the speller is asked the spelling of APPLE, and he incorrectly spells it as A-P-L-E, the word cannot be corrected because the whole word has been spelled. However, if the speller has only spelled up to A-P-L, and not said the last letter, she/he will be allowed to correct the spelling, but, in that case, the ‘Say-SPELL-Say’ process must be followed again.
10. If the designated speller has started spelling the word before the 40 second signal is given, she/he will be allowed to complete spelling the word, but will not be allowed to correct the spelling.
11. If a team loses its allotted time of 40 seconds on account of any outside disruptions, it will be either given extra time to spell it, or given a new word and allotted another 40 seconds to spell it. The decision to grant the extra time or a new word will be made at the discretion of the pronouncer.

B. Scoring Rules and Sample Marksheet:

1. If both procedure and spelling are correct, the student will get 2 (two) marks.
2. If the procedure is correct but the spelling is incorrect, the student will get -1 (minus one).
3. If a speller is unable to spell a word or refuses to do so, the speller will get -1 (minus one).
4. If the procedure is incorrect but the spelling is correct, the student will get 0 (zero).
5. If both procedure and spelling are incorrect, the student will get -1 (minus one).

Scoring Rules	
Correct procedure + Correct spelling	Marks = 2
Correct procedure + Incorrect spelling	Marks = -1
No answer	Marks = -1
Incorrect procedure + Correct spelling	Marks = 0
Incorrect procedure + Incorrect spelling	Marks = -1
